

As a 71 year old independent voter, I have always considered the free media to be the 4th arm of our government. Allowing Sinclair Broadcasting to air an anti-Kerry "documentary" days before the national elections would be, in my mind, a dangerous decision. The current trend to allow the media to consolidate into the hands of a powerful few will cause us to go down a slippery slope into a mindless society. Need I bring up "1984" ?

Our airways are public. As such, they should and must be used for the good of the public, not just for the good of the privileged. Please demonstrate that this is a government of the people, by the people and for the people. You must not yield to the select few dictating to the American people only what they want us to see and hear.
